

FEARLESS PERFORMANCE®

118.MAWP

Cryo-Gloves® by Tempshield

Waterproof

- Hand protection when working with liquid nitrogen, dry ice, liquid baths or blast freezers. Also with liquid oxygen, helium and liquefied natural gas in enclosed systems only as the gloves are not anti-static.
- Maximum thermal protection when working in hazardous, cold environments (in temperatures ranging from -160°C to +148°C).
- A thin, seamless 100% waterproof liner provides protection from spills and splashes.
- Lightweight and comfortable.
- Breathable and stay-dry lining.

Standards and Approvals

Suitable for:

Bio-Medical Labs | Clinical Labs | Blood Banks | Fertility Clinics | Pharmaceutical | Genetics and Biotechnology | Cryo-Preservation Facilities | Liquid Spill Response | Industrial | Aerospace | Petrochemical | Frozen Food Processing | Cryogenic Liquid & Gas Producers | Environments where Cryogenic liquids are handled.

Important: Not for immersion in liquid nitrogen!

PRODUCT DETAILS

Palmside material :	Nylon
Upperhand material :	Nylon
Liner material :	Synthetic liner
Lining type :	Fully lined
Grip :	Dry

PACKING / TRANSPORT

Glove fit :	Loose fit
Size :	M XL
Length :	39 cm
Color :	Blue
